THE GOVERNMENT OF 1885.

BIOGRAPHICAL AND POLITICAL SKETCHES OF THE MEMBERS OF THE EXECUTIVE AND LEGISLATIVE DEPARTMENTS.

EXECUTIVE DEPARTMENT.

Governor.

HIS EXCELLENCY GEORGE DEXTER ROBINSON enters for a second term upon the highest office in the Commonwealth. A resident of Chicopee, he was born in Lexington, Mass., February 20, 1834, and prepared for college in the Hopkins Classical School, Cambridge. He was graduated at Harvard University in 1856, and accepting the position of Principal of the High School in Chicopee, remained in that institution nine years, retiring in 1865. He was admitted to the Bar in Cambridge in 1866, and entered at once upon the practice of his profession. In 1874 he represented Chicopee in the House of Representatives, and two years later he was a member of the State Senate. In both branches of the Legislature he displayed marked ability, and his qualities as a legislator were recognized in 1876 by his election to represent the then Eleventh District in Congress. Prompt and regular in his attendance to the duties of his position he distinguished himself by his ability to grasp quickly the merits of questions at issue by his broad and honest aims, and by the excellent judgment he displayed in speech and action. A well-informed parliamentarian, he was regarded as an authority in that direction, was one of the best presiding officers in Congress, and in the Forty-fifth, Forty-sixth and Forty-seventh Congresses, of which he was a member, he exerted a strong and useful influence. After the redistricting of the State in 1882 he was elected from the new Twelfth District, but before the organization of the Forty-eighth Congress he was elected Governor. He took his seat in Congress, nevertheless, to assist in the organization of the House, resigning in order to enter upon the duties of the Chief Magistracy of the Commonwealth. Gov. Robinson's first year in this office was marked by a dignified and able discharge of all the requirements of the

position, and he enters upon a second term with a hearty indorsement of popular approval.

Lieutenant Governor.

HIS HONOR OLIVER AMES

of Easton has held the office of Lieutenant Governor two terms. He is a native of the town where his residence is and was born Feb. 21, 1831. His education was received in the public schools, the Leicester Academy and Brown University. He was trained as a practical mechanic in the factory of his father, the late Hon. Oakes Ames, to whose large manufacturing and railroad interests he and his brothers succeeded. In these concerns he is still interested. Prior to the war of the Rebellion he was an officer in the State militia. He was on the School Committee in Easton a number of years and was a member of the State Senate in 1880 and 1881.

Secretary of the Commonwealth.

HON. HENRY BAILEY PEIRCE of Abington has been Secretary of the Commonwealth since 1876, and has been an efficient and popular official. He was born in Duxbury, Mass., Aug. 6, 1841, received his education in the public schools and in a mercantile academy, and in 1861 enlisted in the Twenty-third Massachusetts Regiment, with which he served during the war of the Rebellion, being mustered out as a Captain. Present the very highest excellence yet attained in
such instruments.

For ORGANS, these makers have been awarded highest honors at EVERY GREAT WORLD'S INDUSTRIAL EXHIBITION FOR SEVENTEEN YEARS; *no other American Organs having been found equal to them in even one such comparison.* Skill matured and facilities perfected by the manufacture of 150,000 organs enable them to make to-day better instruments than ever before. ONE HUNDRED STYLES, adapted to all uses, from \$22 to \$900 and up. Illustrated catalogues, 46 pp. 4to, free.

They have recently commenced the manufacture of UPRIGHT PIANOFORTES, combining all previous excellences with a very important improvement of their own, tending to greater purity and refinement of tone and especially durability. This has been pronounced the greatest improvement made in Upright Pianos in half a century. Every piano of their make will illustrate that VERY HIGHEST EXCELLENCE which has always characterized their organs. Illustrated and descriptive circulars free.

THE NOTMAN PHOTOGRAPHIC COMPANY

Are, through the excellence of their work so well known throughout the world, that they feel reluctant in speaking of themselves, even in a publication of this nature. Still, as many of the members of each House, may only incidentally have heard of the quality of work turned out by them, they feel they will be acquitted of any egotism, when they say that their work is still ahead of the times, and even their opponents award to them the palm. The excellence of their Photographs has been again and again honored with medals from Foreign nations. London, Paris, Vienna, and even the distant antipodes (Australia) has sent forth its recognition of the superiority of their work, and here in our midst against all competitors, the commissioners of the Philadelphia Centennial, set by a special appropriation and presented them with a GOLD MEDAL, and to no one else for any class of exhibit was such a special award granted. They are not, therefore, singing their own praise: their work is their talisman, and it is their determination to keep in the front rank and lead in their profession. Their introduction of the "instantaneous process" was a revolution in Photography, and now by careful experiments and scientific knowledge they have so perfected this process, that it has become a pleasure to sit at their studio, as the operation is so quick, that a negative is secured with the rapidity of lightning.

Their Composition group pictures are a marvel of artistic skill; the *modus operandi* is of their own creation, and in which they defy competition.

The same remarks refer equally to their enlarged pictures, and it is universally acknowledged that their Water Color and India Ink pictures have a warmth and brilliancy about them, that no other artists can produce; still their prices are reasonable, and are especially figured down to meet the times.

They, however, solicit the patronage of the public. Their studio and employees are equal to any emergency. A private elevator conveys sitters from their reception room to the operating room.

Visitors are cordially invited, and every courtesy is extended to them.
